NOTIFICATIONS.

Fort St. George, December 22, 1917.

No. 144.—In order to further the development of indigenous industries, the Government of India have instituted, with the sanction of the Secretary of State, a scheme of technical scholarships to provide natives of India, who are capable of taking advantage of it, with the means of studying the progress which has been made in industries and arts in the most advanced countries of the west. The scheme provides for the award of ten scholarships, and at least one of these will be available annually for each province.

Ordinarily the period for which these scholarships may be held is two years, but in special cases it may be increased to three years or reduced below two years. The value of the scholarships has been fixed at £150 sterling a year, exclusive of fees and travelling expenses, but if in any particular case this amount is found insufficient, the Government will be prepared on good grounds to consider its enhancement. The scholarships are tenable in Great Britain and, with the approval of the Secretary of State, in a foreign country.

2. The scholarships are awarded for the promotion of existing Indian industries and the development of new industries. They are not intended for the study of agriculture or for studying civil engineering, geology, law, medicine forestry, or veterinary science, for which provision already exists in India, but may be awarded for the study of electrical or mechanical engineering. Since the institution of these scholarships, eleven scholarships have been allotted to Madras—one was given in 1906 for the study of the weaving industry, one in 1907 for the study of the leather industry, one in 1908 for the study of textile chemistry as applied to the dyeing, bleaching, finishing and printing of textile fabrics, one in 1909 for the study of the chemistry of soap making and the use of native oils, one in 1910 for the study of metallurgy, two during 1911, one for the study of weaving and one for the study of textile manufacture, one in 1912 for the study of electrical engineering, one in 1913 for the study of the leather goods industry, one in 1914 for the study of sizing and weaving, and one in 1916 for higher electrical engineering.

3. A State technical scholarship will be awarded in this Presidency during the year 1918 for the study of one of the subjects referred to above. Candidates desirous of presenting their study under this scheme should submit their applications to the Director of Public Instruction so as to reach him on or before the 15th March 1918.

Applications will be considered only from persons who have already interested themselves practically in some industry and who are desirous of improving their knowledge of that industry by further training in Europe. Other things being equal, preference will be given to graduates. Applicants should specify in their applications

(1) their age and educational qualifications,
(2) the industry which they propose to study,
(3) their connexion with the industry,
(4) the extent of their practical experience in it, and
(5) the proof, if any, of their mechanical aptitude or industrial bent of mind.

4. The holder of the scholarship will not be bound by any engagement to serve the Government on the completion of his course nor will the Government be bound to employ him. He must generally depend upon his own exertions to make his living on his return to India and must not ordinarily expect to be taken into Government service. In selecting candidates the Governor in Council will be guided by considerations of capacity, character and practical interest in the subject selected and the assurance that the candidate will continue to devote himself to that industry on his return to India. No age limit is laid down for scholars. The course of study to be followed, as well as the place in which it is to be prosecuted, will be settled by the Secretary of State when a scholar arrives in England. Other conditions under which the scholarships are held are—

(1) that the candidate is a native of India as defined in section 6 of the Government of India Act, 1870, viz., "a person born and domiciled within the dominions of His Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only";
(2) that he has the consent of his family (i.e., of his father or guardian) to proceed to Europe or America;
(3) that his character is good;
(4) that he has sufficient knowledge of the English language; and
(5) that he is physically fit to undergo the course of life and study that he will have to follow.

5. Selected scholars should in the first instance communicate with the Madras Students' Advisory Committee in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England, take with them the originals of their certificates, testimonials and other important personal documents suggested to them by the Secretary to the Madras Students' Advisory Committee.

6. State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September, and to reside there for the period of their scholarship unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

7. The following rules have been issued by the Government of India for the guidance of Indian Government scholars in the United Kingdom :—

(1) All Government scholars are required to avail themselves of the information and advice which the Educational Adviser to the Secretary of State for India and the Local Advisers * at University centres are in a position to give them, and to apply to their Local Adviser * for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers * at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Educational Adviser to the Secretary of State for India any matter requiring the sanction of the Secretary of State in Council.

(2) Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21 Cromwell Road, S.W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London, and consulting with him in regard to his course of study, he should also call on the Educational Adviser to the Secretary of State for India at the India Office.

(3) Every scholar must obey all instructions which he may receive, either through the Educational Adviser to the Secretary of State for India or through his local Adviser,* and must consult his Local Adviser * regularly in regard to his work. No course of study will be sanctioned which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

(4) Every scholar must, from time to time, whenever the Local Adviser * requires it, submit a certificate from the proper College or University authority, or from any other authority under whom he is working, showing that his conduct and progress have been satisfactory.

(5) Every scholar must give a written undertaking that he will devote himself exclusively during the tenure of his scholarship to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser *, and to be forwarded through the Local Adviser * at the end of each academic year to the Secretary of State for transmission to India.

(7) Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year. Vacation study should, as far as possible, take form of practical work.

(8) Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the Local Adviser * six weeks before the end of any academic term. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

(9) Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser * under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser † will disburse it to the scholar in such instalments as convenience may indicate. Three months after the date of reporting arrival, the amount to the ensuing official quarter day † will be paid to the Local Adviser,* and subsequent payments will be made in advance on or after each official quarter day. The allowance will, except in special cases, be at the rate of 150*l* a year.

(10) Every scholar is required to lodge with the Educational Adviser to the Secretary of State for India at the India Office, London, before his arrival in England, the sum of 15*l* for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

(11) Charges for University and college fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class if no second be available, will, if sanctioned, be defrayed by the Secretary of State. Applications for payment of all these charges should be made through the Local Adviser.* But charges for private tuition, unless specially sanctioned, for books, instruments, hotel bills and medical attendance must be paid by the scholar himself.

(12) No claim can be admitted for the payment of any expenditure unless the scholar has obtained previous sanction from the Secretary of State.

(13) The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

(14) On the expiration of the scholarship a scholar is provided by the India Office with a free second-class passage to India, and he should apply for it without delay through his Local Adviser.* He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

Fort St. George, January 8, 1918.

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *thirty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, *which must invariably be the place where he is employed or ordinarily resides, or should it not be a centre, the place nearest to it where the examination is held.* A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *thirty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 20th January. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N.B.—*To guard against disappointment in the case of such of the Oral and Practical examination as may be held before the Written examination, candidates are recommended to refer to Part I-B of the* Fort St. George Gazette, *from time to time.*

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognized by the Director of Public Instruction, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades to them brought up by their *pupils*.

N.B.—Heads of institutions recognized for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical Examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no applications of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, before the *31st January*, the necessary drawings, plans, surveys, field books, estimates, or other "certified works." Each of the drawings, etc., submitted must have written on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified works will be valued by examiners unless the certificate of authorship is in each case quite satisfactory and specifies clearly the period of time occupied in the execution of such work and unless the examiners are satisfied as to the identity and

qualifications of the persons granting the certificates. Further, if any suspicion attaches to any certified works submitted by pupils from Technical Schools, the Commissioner will be compelled to recommend to the Director of Public Instruction, the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (i.e., the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be put on one and the same roll. *Also, on the outside of each roll for each subject, each candidate should enter the following particulars* in ink:—

(1) Name of candidate,
(2) Place of examination,
(3) Subject,
(4) Grade, and
(5) Total number of drawings in each roll.

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate* cover and *not rolled* up with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they reach the Commissioner's Office on or before the 31st January after which date no applications will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

11. Candidates in the mofussil should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates in Mysore, Hyderabad Travancore and Cochin States should obtain the same from the Hon'ble the Resident's Treasury. Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Old College, Nungambakkam, and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mofussil requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Elementary.	Intermediate.	Advanced.
	Rs.	Rs.	Rs.
For each subject	3	5	10

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Bank of Madras, and the receipt given by the Treasury Officer or the Bank of Madras attached to the application, which must in every case reach the Commissioner's office on or before the 31st January. *On no account will the fees be received in the Commissioner's office whether sent in cash or by Post Office orders. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fees should be collected by the headmaster and sent in a lump sum to the Bank of Madras together with two lists of the pupils, one of which will be returned by the Bank and the other signed and sent to the headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to headmasters on application.*

14. Each application should be sent direct to the undersigned, post-paid, superscribed and addressed as follows, the receipt for the fee paid *being securely fastened to it.*

☞ Candidates are warned that the application itself *should not be enclosed* with any drawings, plans, surveys, field books, estimates, or other "certified works" that may be sent, but should be submitted in a *separate* cover.

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner for Government Examinations,
Nungambakkam, Madras, S.W.

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post card in their respective applications.* The post card should bear the sender's address only, and no other writing. Such post cards will be returned to them in due course with the "Received" stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given, nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

15. Candidates should write their names, their father's names, and their house names *distinctly* and *in full* in their applications and give their *addresses in full* also; if "Other Hindus" they should

state in column 3 of their applications whether they are "Non-Brahman Caste Hindus," or "Panchamas." Applications defective in any particular will be returned.

Note.—The occupation or profession of candidates, or the appointments held by them should uncertainly be stated—in full—in column 10 of their applications.

18. *The fees paid will, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the notifications carefully and satisfy themselves, before remitting their fee, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the written, or the oral and practical examinations.*

17. Candidates for the Intermediate or Advanced examinations whose names have already been published in the Gazette as having passed a particular stage or stages in subjects in which the examination is divided into stages, or as having passed the Intermediate (late Preliminary), where the examination is of two grades—Intermediate and Advanced—must in their applications cite the date and page of the Gazette in which their names appear and their number in the list of successful candidates.

18. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examinations will be conducted in the order of time and subjects shown in the following table, beginning each day at 10 o'clock in the forenoon and 2 o'clock in the afternoon except in the case of examinations on the 18th and 20th April for which the arrangement is different as shown in the time table. *Candidates will not be allowed to come up on more than one of the subjects bracketed together for the same time on the same day, or for more than one grade of examination in the same subject in the same year.*

PRESS COMMUNIQUE.

In accordance with the promise made at the last meeting of the Legislative Council, the following note on the subject of stocks and prices of salt is issued for general information :—

The causes that have led to the decrease in the stock of salt in the Presidency up to the year 1916-17 have been dealt with in the administration report which has recently issued. Briefly stated they are that the seasons of 1913, 1914 and 1915 were exceptionally unfavourable for salt manufacture while the sales for 1915 were 1,602,508 maunds in excess of those for the previous year.

In the season of 1917 the efforts previously made to increase the output were redoubled. The acreage under cultivation was increased by 12 per cent and every inducement was given to manufacturers to outturn the maximum quantity possible. These measures met with some success in the south. In the factories of the Negapatam subdivision the output was increased by 20 per cent and in those round Tuticorin by 82 per cent. Further north, however, the season was again extraordinarily unfavourable. At the Kannes factories, which for the first half of the season showed an increase on the previous year's output, heavy and continuous rain practically put a stop to manufacture in June. The same was the case throughout Nellore. North of the matters were still worse. The factories in Kistna and Godavari succeeded in making only 50 and 44 per cent of their normal output before rain put a stop to scraping, while the important factory of Naupada in Ganjam scraped only 54 lakhs of maunds as against 102 in the previous year.

With all this there was an ample stock at the close of the season to meet the normal demand, amounting on 1st August 1917 to 9,558,237 maunds as against an average demand for the six months which had to elapse before new salt was available of 5,128,740 maunds. Of the former quantity 3,709,740 maunds, or 40 per cent was in the hands of Government and available for the purpose of steadying prices. The means adopted for doing this was to divide the Government stock at each steadying prices. The means adopted for doing this was to divide the Government stock at each centre into monthly allotments and to sell these by auction, since it had been found that unconditional sale at a fixed price simply meant making a present of the difference between the fixed and the market price to the middleman. The amount offered for sale every month from 1st October onwards has been 421,100 maunds divided between 18 factories.

These arrangements, while far from ideal, worked fairly well on the whole in spite of occasional attempts to corner the market, until a sudden and unexpected exhaustion of stocks in Bengal led to much speculative buying all down the coast and threatened the exhaustion of the excise stocks in the Presidency. This has made it necessary to take further steps to protect the local consumer. The action the Government are taking in this respect is as follows: In the Madras Town 2,000 maunds a day will be offered for sale to genuine retail dealers in salt at Rs. 3-14-6 per two maund bag on the understanding that they undertake to sell at not more than 1 anna 6 pice per measure. For persons requiring smaller quantities one pound packets of refined salt will be offered by retail at the Exhibition and later at the Moore Market at 1 anna 3 pice per packet. In the mufassal chairmen of municipalities will be permitted to purchase salt from the nearest factory at which Government salt is available at the rate of Rs. 3-12-0 per two-maund bag on the understanding that they will make similar provision for sale by genuine retail dealers at a price per measure which will not afford them more than a fair rate of profit. For the supply of the areas which ordinarily derive their supplies from Bombay, endeavours are being made to secure freight for special consignments to be deposited in depots at Erode and Guntakal.

Meanwhile the efforts of the department have been directed throughout this year to securing a further large increase in the area under salt cultivation in the season of 1918. The assistance of the Chambers of Commerce in finding enterprising licensees for areas aggregating 2,800 acres was asked in July last and of this total arrangements have been completed or are nearing completion for the leasing of 2,000 acres. To this another 2,000 acres, the suitability of which for salt manufactures had not been determined at the time the Chambers were addressed has been added. Inducements are being offered to licensees, in the way of enhanced payments for salt and liberal advances, to commence manufacture early and to turn out the maximum possible quantity and it is hoped that, if the season of 1918 is favourable, there will not only be a marked fall in the local price, but that the Madras factories will be able to secure a hold on outside markets which will be a considerable source of profit to them in years to come.

M.R.Ry. C. Gopal Menon Avargal.

240. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Thursday, the 21th December 1917.

241. Read note by the Deputy Chief Engineer supported by the Engineer-Chairman putting forward for sanction of the Board a draft of a new agreement with Mr. E. L. Payne extending his service up to the 3th June 1918.

Resolved that the agreement be sanctioned.

242. Read again Port Trust Board Resolution No. 219, dated the 6th December 1917. Read also a note by the Chairman, submitting a statement of the enhanced cost of the group of the Trust's buildings proposed to be insured for the year 1918 with a proposal that a larger premium be payable so as to cover the higher expenditure necessary, under present conditions, to replace a damaged structure.

Resolved to sanction the payment of the proposed larger premium so as fully to cover the risks dependent on the higher value of the group of buildings.

243. Read a note by the Traffic Manager submitting for orders a letter from Messrs. Volkart Brothers asking for permission to sublet to another firm a part of the compartment which they occupy in warehouse Y.

Resolved to refuse the concession asked for.

244. Read a note by the Traffic Manager supporting an application from Messrs T. A. Taylor & Co. for a remission of dues in the case of certain packages ex S.S. "Mandala" because of delays in the arrival of the ship's documents caused by war conditions.

Resolved that, subject to Government sanction, the remission be granted.

SUPPLEMENT TO PART II

OF

THE FORT ST. GEORGE GAZETTE.

No. 27 MADRAS, TUESDAY EVENING, JANUARY 15, 1918. [Price, 6 pies.

AUDIT ORDER OF THE MADRAS GOVERNMENT SERVANTS' CO-OPERATIVE SOCIETY, LIMITED, No. 980, FOR 1916-17.

The accounts of the Madras Government Servants' Co-operative Society, Limited, No 980, for the co-operative year ending with 30th June 1917, as audited by M.R.Ry. C. Krishnamurti, Public Accountant and Auditor, are passed. The three statements—(1) Receipts and disbursements, (2) Profit and loss and (3) Assets and liabilities—furnished by him are appended to this order.

2. The society showed progress in all its transactions during the year under report. The number of members increased from 1,031 at its beginning to 1,238 at its end; the paid-up share capital rose from Rs. 1[illegible]68 to Rs. 28,105; and the deposits of members and non-members swelled from Rs. 31,130 to Rs. 50,857-8-0. Under loan transactions with its members and other societies there was a collection of Rs. 88,147-4-1 out of the demand of Rs. 92,879-8-1 leaving a balance of Rs. 4,732-4-0 as actually overdue against its members on 30th June 1917.

3. The society earned during the year a net profit of Rs. 2,257-11-1. Not less than one-fourth of this amount, or Rs 629-8-10, should be carried to the credit of the Reserve fund. The audit order for 1916-17 directed the society to remit its reserve amount of Rs 4-8-7-10 for that year to the Coimbatore District Urban Bank, deducting therefrom the interest of Rs. 100-15-11 which was already credited by that bank to the Reserve fund account for the year. As the society did not do so, the amount that should now be remitted to that bank would be Rs. 629-8-10 plus Rs. 137-7-11 of the previous year or Rs 1,026-14-9. In remitting this amount the society will deduct the interest credited by the bank on its Reserve fund for 1916-17 and remit only the balance. In addition it should also add to its reserve the indivisible profit, if any, of the previous year.

4. The committee met only thrice during the year. The work of the society was on the whole progressive.
